SUBJECT INDEX OF ORIGINAL ARTICLES[a]

ACETATE, mammary gland utilization of, 504*
Alimentary tract contents, of calves at birth, 839
Alfalfa, dehydrated, feeding value of, 515
Alfalfa hay,
  antirachitic properties of, 1107
  feeding value of, 755
  immature, nutritive value of, 1001
  methoxychlor-treated, effect on dairy cows, 445
Alfalfa meal, fed to calves, 424
Alfalfa silage, preservation of,
  effect of corn meal on, 1076
  effect of dried whey on, 1076
  effect of moisture level on, 1076
Amino acids,
  in colostrum, soil fertility and, 128
  in foreign type cheeses, chromatography of, 479*
  in milk protein, soil fertility and, 128
  of fat-globule membrane, 615
  synthesis of, in bovine rumen, 505 *
Antibiotics,
  and semen fertility, 899
  effect on rumen microorganisms, 571
  used in semen dilutors, 489*
  value in preservation of milk, 1101
Association announcement,
  intercollegiate judging results, 1132
  new editor named, 800
  new members in 1952, 1130
  officers and committees of ADSA, 88
  proceedings, 47th annual meeting, 711
  program, 47th annual meeting, 463
  XIIIth International Dairy Congress, 370
Aureomycin,
  effect on keeping quality of pasteurized milk, 485*
  fed to calves,
    growth response to, 493*, 1094
    weight changes due to, 1094
  in milk,
    effect on cheese making, 51
    effect on starter activity, 51
  value in milk replacements for calves, 493*
  value in milk replacement formulas, 910
Aureomycin supplementation, of calves,
  effect on feed utilization, 846
  effect on growth, 846

BACTERIA,
  associated with Swiss cheese, effect of copper on, 929
  influence on biacetyl in cottage cheese, 482*
Bacteriophage,
  carrier state of, 813
  effect on mixed strain starters, 371
  for *S. thermophilus*, from Swiss cheese whey, 483*
  multiple-strain in lactic starters, 668
  "nascent phenomenon" of, 371
Benzoyl peroxide, in bleaching milk, factors affecting action of, 483
Biopsy, of bovine endometrium, 499
Biuret test, quantitative, for milk serum proteins, 823
Blood, goats, short-chain fatty acids of, 631
Blood hemoglobin values, of dairy cattle, 661
Blood mineral balance, relation to milk fever of, 587
Blood plasma,
  calves, dietary lipids and fatty acids of, 492*
  carotenoid concentration of, carotene intake and, 687
  vitamin A level of,
    carotene intake and, 687
    vitamin A intake and, 687
Blood plasma lipids, of calves, type of dietary lipids and, 1046
Blood serum iodine,
  effect of thyroprotein feeding on, 503*
  relation to age and breed, 603
Bread, quality of, effect of milk serum proteins on, 482*
Browning, of heated milk, 1053
Brucella abortus, in Italian cheese curd, 479*
Bulls,
  body measurements of, effect of grass silage on, 949
  delayed returns to service caused by, 250
  effect of air temperature on, 489*
  effect of humidity on, 489*
  feed utilization by, effect of grass silage on, 949
  fertility of,
    seasonal changes in, 245
    sexual excitement and, 801
  hypothyroidism in, thiouracil-induced, 498*
  libido of, frequency of ejaculation and, 489*
  monozygotic, nutritional studies with, 489*
  semen quality,
    effect of grass silage on, 949
    frequency of ejaculation and, 489*
Butter,
  ascorbic acid as antioxidant in, 485*
  continuous process, copper content of, 292
  fat hydroylsis in, measurement of, 59
  from sweet cream, keeping quality of, 484*
  "skunkweed" flavor in, 485*
  surface-taint in, bacteriology of, 403
Butterfat,
  glyceride structure of, 486*
  heat of solidification of, 1125
  polymorphism of, 486*
Butterfat production,
  early growth rate and, 957
  oxytocin for reducing fluctuations in, 1117
Butterfat test of milk, effect of oxytocin on, 1117

[a] Prepared by D. D. Deane.

* Abstract of paper read at Annual Meeting.

Buttermilk, roller-dried,
ammonia content of, 116
formol titration of, 116
Butteroil,
in filled milks fed to calves, 507
manufacture of, surface active agents in, 655

CALCIUM, radioactive, calcium metabolism measured with, 783
Calcium metabolism, in lactating goats, 783
Calf diet, DDT in, effect on digestion of, 6
Calf scours, slacked lime in prevention of, 491*
Calf starters, 491*
Calf tissue, riboflavin level in, effect of ration on, 492*
Calves,
alfalfa hay as roughage for, 98
alfalfa meal in diet of,
effect on carotene intake of, 424
effect on growth of, 424
alimentary tract contents at birth, 839
aureomycin fed to,
effect on feed utilization of, 846
growth response to, 493*, 846
growth response due to, 1094
weight changes due to, 1094
blood plasma levels of carotene in, 320
blood plasma levels of vitamin A in, 320
blood plasma lipids of, 1046
type of dietary lipids and, 492*
carotene absorption by, 283, 320
rate of, 320
carotene intake and,
liver storage in, 687
plasma storage in, 687
cross bred, birth weights of, 498*
filled milks for,
butteroil in, 507
soybean oil in, 507
fistulated, omasal-abomasal feeding of, 505*
growth of,
cud inoculation and, 493*
effect of aureomycin on, 493*, 846, 1094
growth stimulant for, arsonic acid derivatives as, 492*
heart girth of, age changes in, 495*
mammary evaluation grade, age changes in, 495*
milk replacements for, 336
aureomycin in, 493*, 910
DL-methionine in, 675
penicillin in, 675
vitamin B_{12} in, 675, 910
prairie vs. alfalfa hay for, 501*
purebred, birth weights of, 498*
response to aureomycin of, type of protein fed and, 493*
rickets in,
alfalfa hay for, 1107
limestone in ration for, 1107
simplified starters for, 491*
vitamin A absorption by, 283, 320
rate of, 320
vitamin A depleted,
effect of ascorbic acid on, 607
response to vitamin A of, 607
whey-fed slacked lime in prevention of scours in, 491*
Carotene,
absorption of, by dairy calves, 283, 320
calf blood plasma levels of, absorption rate and, 320
in alfalfa hay, 98
liver storage of, carotene intake and, 687
utilization from hay, vitamin supplementation and, 492*
Carrier state, of lactic streptococcus bacteriophage, 813
Casein fractions, separation of, 272
Cattle, (*also see* "cows")
blood hemoglobin values of, 661
crossbred, production records of, 495*
effect of stress conditions on, 494*
European, evaporative cooling in, 495*
genetic resistance to mastitis, 829
Indian, evaporative cooling in, 495*
interbreeding vs. intrabreeding, fertility in, 963
irregular breeding in, studies of, 500*
Jersey, genetic correlation of type and production, 199
loose vs. stanchion-barn housing for, 495
nutrition of, unidentified dietary factors in, 30, 41
ovulation studies on, 436
pregnancy test for, 499*
production testing of, testing interval in, 350
resistance to mastitis, genetic relationships in, 829
Cattle forage, nitrogen digestibility of, 502*
Cellulose digestion, by rumen microorganisms, effect of antibiotics on, 571
Cheese,
blue, colorless mutants of *P. roqueforti* for, 480*
brick, bacteriology of sweet-curd type, 1067
cheddar,
effect of aureomycin in making, 51
gas in, from *L. citrovorum*, 554
proteinases of, bacterial proteinases compared with, 149
reducing sugars in, 779
cottage,
biacetyl in, effect of spoilage bacteria on, 482*
effect of aureomycin in making, 51
foreign-types, free amino acids in, by chromatography, 479*
Italian, *Br. abortus* in, 479*
lower fatty acids in, by chromatography, 479*
Provolone, relationship of fatty acids to ripening of, 480*
Swiss,
cultures for, effect of copper on, 929
development of fatty acids in, 480*
Cheese body, device for measuring, 480*
Cheese proteinases, bacterial proteinases compared with, 149
Chromatography,
for neutral steroids in cow's urine, 500*
of free amino acids in cheese, 479*
of lower fatty acids in cheese, 479*

Colostrum,
amino acid composition of, soil fertility and, 128
buffering capacity of, 356
high protein concentration in, role of plasma cells in, 496*
osmotic pressure of, 356
pH of, 356
Cooked flavor, sulfhydryl groups and, 699
Copper,
effect on Swiss cheese cultures, 929
in continuous process butter, 292
Corrosion by acid cleaners,
of stainless steel, 449
of tinned steel, 449
Cows, (*also see* "cattle")
body weight of, hay-grain ratios fed and, 506*
butterfat production by, early growth rate and, 957
duration of gestation in, factors associated with, 179
early growth rate of, butterfat production and, 957
effect of relaxin on cervix of, 499*
effect of toxaphene on, 214
estimating lactation yields of, 977
fertility of, non-return to service as estimate of, 256
lactating,
"hard" vs. "soft" water for, 998
urea utilization by, 1001
lactation of,
effect of estrus on, 234
effect of gestation on, 224
methoxychlor-treated alfalfa fed to, 445
milk fever in, mineral balance in blood and, 587
milking, grass silage vs. hay as pasture supplement for, 501*
pear-cannery waste fed to, 503*
placentome of, intracrypt space in, 499*
pregnancy interruption in, breeding techniques and, 219
rumen contents of, properties of, 505*
self feeding of hay and grain to, 501*
uterine motility of, effect of hormones on, 499*
variation in daily milk yield of, 967
Cream,
aging of, effect on fatty acid distribution in, 484*
ascorbic acid as antioxidant in, 485*
cooled, thermal behavior of fat in, 1125
de-emulsification of, surface-active agents in, 655
fat hydrolysis in, measurement of, 342
frozen, antioxidants used in, 93
"skunkweed" flavor in, 485*
WIA production in, by *Geotrichum candidum*, 298
Cultures,
carrier state of bacteriophage in, 813
for Swiss cheese, effect of copper on, 929
multiple-strain bacteriophage infection of, 668
Curd tension, of milk, effect of electric current on, 920

DDT,
in calf diet, effect on digestion, 6
in milk, factors affecting concentration of, 266
De-emulsifying agents, for milk fat, 324
Diluents, for plating bacteria, effect on *Ps. putrefaciens* of, 738
Distillers feeds, value in milk production, 868

ELECTROPHORESIS,
of fat-membrane proteins of milk, 486*
of skimmilk, 487*
of skimmilk proteins,
effect of heating on, 1036, 1083
sample preparation for, 1026
Endometrium, biopsy technique for, 499*
Environment, influence of, on milk production, 540
Extraneous matter, in roller-dried milk powder, determination of, 550

FAT-GLOBULE MEMBRANE, amino acids of, 615
Fat hydrolysis, measurement of,
in butter, 59
in cream, 342
Fat metabolism, in mammary gland, 496*
Fat test, effect of removal of residual milk on, 1121
Fatty acids,
in cheese, chromatography of, 479*
in cream, effect of aging on distribution of, 484*
in Provolone cheese, 480*
in Swiss cheese, 480*
polyunsaturated, in calf plasma, effect of dietary lipids on, 492*
short-chain, in goats' blood, 631
Fecal material, methoxy groups in, as index of feed value of forages, 595
Feed,
digestibility of, hay-grain ratio fed and, 506*
for cattle, pear-cannery waste as, 503*
Feed utilization, effect of sulfur content of rations on, 503*
Feeds, relation between TDN and energy values of, 502*
Fertility,
of bulls, sexual excitement and, 801
of heifers, effect of age and size on, 620
Forage, feeding value of, methoxy groups in as index of, 595
Forage crops, preservation with SO_2, 329, 501*
Forages, dehydrated, feeding values of, 515
Fructose, utilization by spermatozoa, 637

GEOTRICHUM CANDIDUM,
lipase of, 455
WIA production in cream by, 298
Gestation, duration of, factors associated with, 179
Glucose, utilization by spermatozoa, 637

Goats,
lactating calcium metabolism in, 783
short-chain fatty acid in blood of, 631
Grain, unidentified dietary factors in, 41
Grazing rotational vs. continuous, 623
Growth stimulant, for calves, arsonic acid derivatives as, 492*

HAY,
alfalfa,
antirachitic properties of, 1107
curing method and carotene content of, 98
immature, nutritive value of, 1001
methoxychlor-treated, fed to cows, 445
lespedeza, feeding value for milk production, 559
peanut hulls as replacement for, 30
prairie vs. alfalfa for calves, 501*
timothy, immature, nutritive value of, 1001
vs. roughage as pasture supplement, 501*
Heat exchanger, small-tube,
characteristics of, 13
properties of cream heated in, 13
Heat of solidification, of milk fat, 1125
Heat stability test, for milk proteins, 937
Heifers,
carotene utilization from hay by, 492*
feeding value of alfalfa hay for, 755
fertility of, 620
ovulation time of,
effect of gonadotrophic pituitary extract on, 71
effect of progesterone on, 65
twin, growth uniformity trials with, 494*
Hormone implants, inducing lactation by, 504*
Hormones,
for milk "let-down",
amount of, 889
discharge of, 894
gonadotropic, influence on semen quality, 489*
influence on lactation, 503*
udder development with, 504*
Hydrotron, effect on milkstone formation, 920
Hypothyroidism, in dairy bulls, thiouracil-induced, 498*

ICE CREAM, lactic acid in, determination of, 305
Insemination, intrauterine, 808
Iodine, serum,
effect of thyroprotein feeding of cows on, 503*
relation of to age and breed, 603

JOURNALS, reference, used by dairy scientists, 566

KEEPING QUALITY, of sweet cream butter, evaluation of, 484*
Ketosis,
blood levels of certain constituents in, 497*
pituitary-adrenal cortical syndrome in, 497*
sodium acetate given orally for, 497*
urinary excretion of certain constituents in, 497*

LACTATION,
effect of estrus on, 234
effect of gestation on, 224
induced, caused by hormone implants, 504*
influence of hormones on, 503*
in ruminants, relation of sulfur compounds to, 502*
Lactation yields,
daily variation in, 967
methods of estimating, 977
Lactic acid, determination of,
in ice cream, 305
in ice cream ingredients, 305
Lactic acid bacteria, milk as medium for, effect of heat on, 988
Lactose, metabolism of, 504*
Leuconostoc citrovorum, gas production in cheddar cheese by, 554
Lindane, in cow's milk dosage level and concentration of, 733
Lipase,
of *Geotrichum candidum*, 455
of *Ps. fragi*, behavior of, in cream and butter, 484*
Lipids, blood plasma,
of calves, 1046
of calves, type of dietary lipid and, 492*

MAMMARY GLAND,
acetate utilization by, 504*
development of,
hormone control of, 504*
hormone implants for 504*
fat metabolism in, studies on, 496*
globulins produced in, role of plasma cells in, 496*
hyalin-fibrin complex in, 496*
Mastitis,
resistance of cattle to, genetic relationships in, 829
streptococcal, causative mechanisms in, 496*
Matings, interbreed vs. intrabreed, fertility of, 963
Medium for propionibacteria, 915
DL-methionine, in milk replacements for calves, 675
Methoxy groups, in forage, as index of feeding value, 595
Micrococci, in milk, thermal resistance of, 484*
Milk,
antioxidant properties of, influence of pasture on, 481*
as culture medium, effect of heat on, 988
aureomycin in,
effect on cheese making, 51
effect on starter activity, 51
benzoyl peroxide bleaching of, factors affecting, 483*
calcium ion activity in, estimation of, 488*
concentrated,
pasteurization requirements of, 793
preservation of, value of subtilin for, 1101

curd tension of, effect of electrical current on, 920
daily yield of, variation in, 967
DDT in, factors affecting concentration of, 266
dried, roller process, test for extraneous matter in, 550
dried, whole,
antioxidant properties of NDGA in, 524
keeping quality of, 643
measuring wettability of, 481*
oxidation-reduction systems of, 643
surface-active agents used to improve wettability of, 482*
evaporated,
browning of, factors involved in, 1053
color of, observations on, 488*
crystalline deposit in, 106
forewarming treatment for, 388
heat stability of, effect of enzymatic proteolysis on, 857
incipient enzymatic proteolysis of,
effect on heat stability of, 857
effect on viscosity of, 857
metals in, spectrographic analysis for, 488*
storage of,
changes produced by, 166, 488*
increase in fluorescence during, 166
viscosity of, effect of enzymatic proteolysis on, 857
with high heat stability, 388
fat content of,
influence of type of silage on, 481*
removal of residual milk and, 1121
fat membrane proteins of,
composition of, 486*
electrophoresis of, 486*
isolation of, 486*
fat test of, high-fat ration and, 1117
filled, fed to dairy calves,
butteroil in, 507
soybean oil in, 507
flavor of,
influence of type of silage on, 481*
pasture grazing interval and, 502*
fluid,
incidence of antibiotics in, 533
incidence of quaternaries in, 533
incidence of sulfa drugs in, 533
freeze-dried, properties of, 77
frozen concentrated,
protein stability of, 481*
stability of, 1
frozen homogenized, keeping quality of,
added ascorbic acid and, 195
added sucrose and, 195
frozen stored, stability of, 1
heated,
as medium for lactic cultures, 988
tactual flavor of, 161
heat treatment of, undenatured serum protein as index of, 487*
homogenized, fat membrane proteins of, 486*
high quality, factors influencing production of, 494*
lactation yields of, estimation of, 977
"let-down" hormone for,
amount of, 889
discharge of, 894
lindane concentration in, dosage level and, 733
micrococci in, thermal resistance of, 484*
nonfat dry,
for starter activity tests, 484*
particle size of, 483*
reconstituted, as semen dilutor, 491*
serum protein denaturation in, 363
oxidized flavor in,
factors in development of, 21
tocopherol supplementation and, 834
pasteurized, keeping quality of, added aureomycin and, 485*
pH of, influence of type of silage on, 481*
preservation of, value of subtilin for, 1101
protein stability of, effect of electrical current on, 920
quality of, influence of permanent pipelines on, 874
residual, removal of and subsequent milk yield, 1121
riboflavin-deficient, preparation of, 581
skim,
electrophoresis of, 486*
heated, electrophoretic patterns of, 487*, 1036, 1083
proteins of, electrophoresis of, 1026, 1083
titratable acidity of, type of silage and, 481*
total protein of, relationship of per cent milk fat to, 174
total solids of, type of silage and, 481*
yield of,
high-fat diet and, 1117
oxytocin for reducing fluctuations in, 1117
Milk bottles,
clear glass, vitamin destruction rate in, 772
colored glass, vitamin destruction rate in, 772
paper, vitamin destruction rate in, 772
Milk energy, relationship to per cent of milk fat, 174
Milk fat,
de-emulsifying agents for, 324
heat of solidification of, 1125
per cent of, relationship of milk energy to, 174
per cent of, relationship of total protein to, 174
vitamin content of, effect of tocopherol supplementation on, 834
Milk fat production, effect of tocopherol supplementation on, 834
Milk fever, occurrence of, mineral balance in blood and, 587
Milk "let-down",
amount of hormone for, 889
discharge of hormone for, 894
stimulation of,
methods used for, 1017
milking response after, 1017
Milk powder,
heat treatment in, undenatured serum protein as index of, 487*

measuring wettability of, 481*
wettability of, surface-active agents used to improve, 482*
Milk production,
effect of high-fat diet on, 1117
environmental influences on, 540
feed value of lespedeza hay for, 559
hay-grain ratio fed and, 506*
oxytocin for reducing daily fluctuations in, 1117
pasture grazing interval and, 502*
persistency of, 502*
removal of residual milk and subsequent, 1121
type of silage and, 481*
urea in ration and, 1001
value of distillers feeds for, 868
value of immature hays for, 1001
Milk production records, of crossbred cattle, 495*
Milk products, oxidized flavor in, 21
Milk proteins,
amino acid composition of, soil fertility and, 128
electrophoresis of, 1026, 1083
electrophoretic patterns of, effect of heating on, 1036, 1083
fractions of, sulfhydryl content of, 699
heat stability test for, 937
quantitative Biuret test for, 823
Milk quality, permanent pipe lines in dairy barn and, 494*
Milk substitutes, for dairy calves, 336, 675, 910
Milk yield,
daily variation in, 967
removal of residual milk and subsequent, 1121
Milking response, after stimulating milk let-down, 1017
Milkstone formation, effect of electrical current on, 920
Minerals, trace,
blood concentration of, 693
liver concentration of, 693

NDGA, antioxidant properties of, in whole milk powder, 524
Noseprints, bovine, classification of, 314

OAKWOOD MEAL, as hay replacement, 41
Ovulation, time of,
effect of gonadotrophic pituitary extract on, 71
effect of progesterone on, 65
Ovulations, in Holstein cattle, studies of, 436
Oxidized flavor,
in cream and butter,
role of tocopherol in development of, 485*
role of ascorbic acid in development of, 485*
in frozen cream, effect of antioxidants on, 93
in milk,
origin of, 21
tocopherol supplementation and, 834
in milk products, 21
Oxytocin,
effect on fluctuations in milk yield, 1117
effect on milk and fat production, 1117

PASTEURIZATION REQUIREMENTS, of concentrated whole milk, 793
Pasture, influence on antioxidant properties of milk of, 481*
Peanut hulls,
as hay replacement, 30, 41
digestibility of, 30
Penicillin, in milk replacements for calves, 675
Penicillium roqueforti, colorless mutants of, for blue cheese, 480*
pH, influence on germicidal activity of QAC, 764
Phosphatase, inactivation curve for, in HTST pasteurization range, 487*
Pipelines, permanent, in dairy barn,
effect on milk quality of, 494, 874
Pituitary hormone, for milk "let-down",
amount of, 889
discharge of, 894
Plasma, seminal, cytochemical reactions of, 140
Pregnancy test, for dairy cattle, 499*
Production testing, testing interval in, 350
Progesterone, effect on ovulation time, 65
Propionibacteria, enumeration method for, 915
Protein, serum, of nonfat dry milk solids, denaturation of, 363
Proteins,
skimmilk,
electrophoresis of, 1026, 1083
electrophoretic patterns of, 1036
effect of heating on, 1083
milk,
heat stability test for, 937
sulfhydryl content of, 699
milk serum,
effect on bread quality, 482*
quantitative Biuret test for, 823
synthesis of, in bovine rumen, 505*
Protein stability,
of milk, effect of electric current on, 920
of frozen concentrated milk, 1, 481*
Proteinases, bacterial, cheese proteinases compared with, 149
Pseudomonas fragi, lipase from action in cream and butter, 484*
Pseudomonas putrefaciens, growth and survival of, type of diluent and, 738

QUATERNARY AMMONIUM COMPOUNDS, germicidal activity of, effect of pH on, 764

RABBITS, sterility in, soybean hay in diet and, 498*
Relaxin, effect on bovine cervix, 499*
Resazurin test, modified, for estimating fertilizing capacity of semen, 881

Riboflavin,
destruction rate of, milk bottle type and, 772
removal of from milk, 581
Riboflavin level, in calf tissue, effect of ration on, 492*
Rickets, in calves,
alfalfa hay for, 1107
limestone in ration for, 1107
Roughage,
for calves, cured alfalfa hay as, 98
grass silage vs. hay as pasture supplement, 501*
Rumen, bovine,
contents of, properties of, 505*
synthesis of amino acids in, 505*
synthesis of proteins in, 505*
Rumen microorganisms, effect of antibiotics on, 571

SCIENTISTS, dairy, reference journals used by, 566
Self feeding, for dairy cows, 501*
Semen,
characteristics of, frequency of ejaculation and, 489*
fertility of,
dilution rate and, 490*, 899
effect of antibiotics on, 261, 899
sodium arsenite and, 906
spermatozoa numbers and, 899
fertilizing capacity of, resazurin test for estimating, 881
fructose content of, sexual excitement and, 801
impedance change, frequency in, 491*
production of sexual excitement and, 801
quality of,
feeding grass silage and, 949
gonadotropic hormones and, 489*
reducing components of, iodimetric titration for, 490*
respiratory activity of,
carotene intake and, 490*
effect of sodium arsenite on, 906
spermatozoa concentration and, 490*
vitamin A intake and, 490*
storage of, at −15° C., 489*
Semen dilutors,
reconstituted dry skimmilk as, 491*
use of bacitracin in, 489*
use of terramycin in, 489*
Sexual excitement, influence on,
fertility of bulls, 801
fructose content of semen, 801
semen production, 801
Silage,
alfalfa, preservation of, 1076
grass, fed to bulls,
effect on body measurements, 949
effect on feed utilization, 949
effect on semen quality, 949
influence on characteristics of milk produced, 481*
Sodium acetate, oral administration for ketosis, 497*
Sodium arsenite,
effect on semen fertility, 906
effect on semen respiration, 906
Soybean hay, sterility in rabbits fed, 498*
Soybean oil, in filled milks fed to calves, 507
Spermatozoa,
antigenicity of, 706
concentration of,
effect on respiratory activity of semen, 490*
effect on semen fertility, 490*, 899
cytochemical reactions of, 140
fructose utilization by, 637
glucose utilization by, 637
ripening of, 393
specific gravity of, 393
uterine transport of, effect of hormones on, 499*
Starter,
action of bacteriophage on, 371, 381
activity of, effect of aureomycin on, 51
Starter activity tests, use of nonfat dry milk solids for, 484*
Starters,
multiple-strain bacteriophages in, 668
Swiss cheese, effect of copper on, 929
Steel,
stainless, corrosion of, by acid cleaners, 449
tinned, corrosion of, by acid cleaners, 449
Steroids, neutral, in cow's urine,
chromatographic separation of, 500*
comparison of, 500*
Stomach, bovine,
early development of, 504*
early function of, 504*
Streptococcus lactis, var. *maltigenes*, acetaldehyde production by, 483*
Streptococcus thermophilus, bacteriophage for, from Swiss cheese whey, 483*
Subtilin, value in preservation of milk, 1101
Sucrose, effect on keeping quality of frozen homogenized milk, 195
Sugars, reducing, in cheddar cheese, 779
Sulfhydryls,
origin of in milk proteins, 699
role in cooked flavor, 699
Sulfur, in cattle rations, influence on feed utilization, 503*
Sulfur dioxide, preservation of forage crops with, 329, 501*
Surface-active agents, in manufacture of butteroil, 655

THYROPROTEIN, influence on serum iodine of cows, 503*
Timothy hay, immature, nutritive value of, 1001
Tocopherol, as antioxidant in cream and butter, 485*
Tocopherol supplementation,
influence on oxidized flavor in milk, 834
milk and fat production following, 834
vitamin content of milk fat following, 834
Toxaphene, effect on dairy cows, 214
Twins,
bull, growth and nutrition trials with, 489*
heifer, growth uniformity trials with, 494*

UREA, utilization of, by lactating cows, 1001
Urine, cow's neutral steroids of, chromatographic separation of, 500*

VITAMIN A,
absorption of, by dairy calves, 283, 320
bovine blood levels of, during vitamin A depletion, 607
calf blood plasma levels of, absorption rate and, 320
effect on vitamin A depleted calves of, 607
liver storage of, carotene intake and, 687
plasma level of,
carotene intake and, 687
dietary factors influencing, 679
vitamin A intake and, 687
Vitamin B_{12}, in milk replacement formulas, 675, 910
Vitamin C,
destruction rate of, milk bottle type and, 772
response of vitamin A depleted calves to, 607
Vitamins, destruction rate of, type of milk bottle and, 772

WATER, softened, for lactating cows, 998
Wheat straw, as hay replacement, 41
WIA, in cream, from *Geotrichum candidum*, 298

WOOD, W. A., effect of copper on culture bacteria, 929; WIA production in cream, 298

YAGER, R. H., frozen homogenized milk, 195

ZAKARIASEN, B. M., butter keeping quality tests, 484*
ZALETEL, J. H., calf plasma lipids, 1046; dietary lipids and plasma fatty acids of calves, 492*; dietary lipids and plasma lipids of calves, 492*
ZEHNER, C. E., loose run vs. stanchion barn housing, 495*
ZORN, R. A., bacteriology of brick cheese, 1067
ZURAW, E., acetaldehyde production by *S. lactis*, 483*

SUBJECT INDEX OF ABSTRACTS[1]

ABSENTEEISM, in milk plants, A5
Accounts receivable, simple system for, A24
Agar, apparatus for tubing, A21
Albumin, serum, binding of
  chloride ions to, A4
  fatty acids to, A4
  organic ions to, A4
Amino acids,
  spectrophotometric analysis of, A4
  sulfur, ruminant synthesis of, A24
Animals,
  excretion collecting bag for, A37
  restraining device for, A37
  watering device for, A37
Antibiotics,
  effect on milk characteristics, A19
  in bovine serum, effect of on *V. fetus*, A67
  influence on semen fertility, A67
  mold growth on cheese prevented with, A42
  processing difficulties due to, A19
  treatment of bovine brucellosis with, A63
Antioxidant, from whey, used in butter manufacture, A41
Artificial insemination, device for, A54
Auto expenses, salesmen's A79

BABCOCK TEST, modified, for ice cream mix, A82
Bacillus subtilis, thermal resistance in evaporated milk, A9
Bacteria,
  aroma type, influence on Herrgård cheese of, A64
  bacteriophage inhibition of, A50
  on food handlers' hands, A3
  psychrophilic,
    in market milk, A89
    in milk and cream,
      kinds of, A9
      numbers of, A9
    in raw milk, A89
Bacterial count, direct microscopic, use of 0.01 ml. syringe in, A64
Bacterial counts,
  of milk drinks, A95
  on refrigerated stored pasteurized milk, A64
Bacterial growth, during delayed cooling of milk, A50
Bacterial spoilage, of processed cheese, A76
Bacteriophage,
  inhibition of bacterial growth by, A50
  multiplication of singe particles of, A19
  processing difficulties due to, A19
Banana puree, frozen, A54
Barn,
  gutter cleaner for, A59
  milking,
    design for, A59
    permanent pipelines for, A81
Blood amino acids, incorporation into milk proteins, A39
Blood calcium, bovine, fractionation of, A43
Blood serum solids, as prophylactic for calf scours, A44
Book reviews,
  Advances in enzymology, vol. 11, A15; vol. 12, A15; vol. 13, A73
  Milk testing, A73
  Sanitation for the food preservation industries, A49
  Special animal husbandry, 2nd ed., A33
  The chemistry and technology of food and food products, vol. 1, 2, 3, 2nd ed., A73
  The mammary gland I. *The anatomy of the udder of cattle and domestic animals*, A49
  Vitamin methods, vol. II, A73
Bottle cap,
  laminated foil, A95, A96
  molded, synthetic, A83
Bottle holder, for doorstep, A96
Bottling machine, paper, defoamer for, A83
Breadmaking, dried milk product for, A76
Brucella ring test, compared to agglutination test, A1
Brucellosis,
  bovine, treatment for, A63
  comparison of agglutination and ring test for, A1
  ring test in diagnosis of, A16
Brucellosis survey, in Ontario, A15
Bulls, dairy,
  estimating transmitting ability of, A36
  evaluation of, as herd sires, A36
Butter,
  Alfa process, structure of, A1
  antioxidant in manufacture of, A41
  aromatic, manufacture of, A42
  catalase test on, A87
  coloring tablet for, A74
  color of, standardization of, A74
  consumption of,
    decline of, A87
    problems in increasing, A87
  continuous churned,
    advantages of process, A87
    butyric acid in, A22
    WIA in, A22
  copper in, determination of, A87
  detection of microorganisms in, A87
  effect of non-washing on, A74
  extraneous matter in, A73
  fat globules in, structure of birefringent layer of, A87
  Fritz continuous process, suitability of, A74
  "Gold'n Flow" continuous process, A74, A87
  hand slicer for, A49
  infrared lamp for softening, A57
  iron in, determination of, A87
  manganese in, determination of, A87
  method of coloring, A74

[1] Prepared by D. D. Deane.

off-flavors in, parchment paper as cause of, A16
oily flavor in, unsaturated carbonyl compounds and, A65
print,
glassine-aluminum foil wrap for, A74
wrapping machine for, A57
Quebec, iron content and quality of, A74
sanitary dispenser for, A75
spreadability of, factors affecting, A16
storage life of,
effect of albumins on, A16
predicting the, A16
pro-oxidants and, A16
summer, fatty acids of, A90
warming receptacle for, A74
whey, making high quality, A16
Butter churn,
metal, A87
metallic surface for, A2
Butter dispenser, A75
Butter extruder, A75
Butterfat,
degradation of, enzyme systems involved in, A20
in ice cream, modified Babcock test for, A82
melted, apparatus for reconstituting milk or cream for, A5
Butterfat production, relation of type to, A92
Butterfat test,
for ice cream, A82
for ice cream mix, A21
Butter-forming device, A2
Buttermarker, metal, A87
Butter oil, use in ice cream, A81
Butter pats, device for making, hand operated, A42

CABINET, refrigerated, for composite milk samples, A28
Calcium,
in bovine blood, fractionation of, A43
in milk ultrafiltrate, A66
Calcium caseinate,
fractionation of, A89
ultracentrifugation of, A89
Calcium intake, effect on fertility of cattle, A5
Calf scours, prophylactic for, bovine serum solids as, A44
Calf weaner, A25, A80
Calves,
dehorner for, A25
leptospirosis in, A1
quadruplet, monozygotic, A59
weaner for, A25, A80
Can, evaporated milk,
dispenser closure for, A6
holder and punch for, A76
holder for, A76
puncturing dispenser for, A88
Canned milk,
fresh, A83
puncturing dispenser for, A76, A88
Can washing, reducing milk losses in, A23
Carbohydrates, action of rumen protozoa on, A24, A36
Carotene, digestibility of,
effect of thiouracil on, A91
effect of thyroxine on, A91
Carotene concentrates,
effect of carriers on, A80
stability of, A80
Casein,
alpha, separation from whole casein, A4
flocculated, preparation of, A77
hydrolysis of, with SO_2, A78
iodination of, A44
nutritive value of,
loss of, A6
processing and, A6
whole, separation of alpha casein from, A4
Catalase, beef liver, crystalline, preparation of, A30
Cattle, (also see "cows")
Aberdeen-Angus, dwarfism in, A93
branding chute for, A54
crossing guard for, rail-type, A54
dehorner for, magazine fed, A25
dehorning apparatus for, A80
dehorning chute for, A54
dwarfism in, A93
effect of fluorine in water on, A41
electrolyte levels in body fluids of,
effect of estrogen on, A7
effect of potassium on, A7
Hereford,
dwarfism in, A93
red color intensity in, heritability of, A68
Holstein-Friesian, live weight and annual production of, A5
lead poisoning in, A5
leading device for, A59
nose tattooing device for, A59
oestrus in, suppression of after mating, A68
restraining device for, A25, A59, A80
sensitized with *M. paratuberculosis*, johnin test on, A1
syndactylism in, A54
twin, skin grafting between, A59
unrelated, skin grafting between, A59
vaccinated with *Br. abortus*, susceptibility to *Br. suis*, A41
vibrosis in, A63
Centrifuge,
cold milk, A58
for breaking milk fat emulsion, A5
for reconstituting melted butterfat, A5
Cetyltrimethylammonium bromide, bactericidal effects of, A20
Cheese,
apparatus for handling in curing room, A3
baker's, manufacture of, A42
butyric acid fermentation in, effect of oxidizing agent on, A89
Camembert, red color defect in, A64
cheddar,
curing temperature and ripening of, A75
reducing extraneous matter in, A17
salt content of, effect on lactic culture activity, A3
whey protein of, enzymatic hydrolysis of, A18
cheddar, Canadian,

finishing of, A75
manufacture of, A75
cottage,
bacterial spoilage of, A49
creaming of, A17
manufacture of, A76
use in the rat diet, A9
Edam,
curing temperature and ripening of, A88
pH and ripening of, A88
extraneous matter in, control of, A75
fat in,
Gerber test for, A21
Roeder test for, A34
gas defect in, due to *Leuconostoc*, A89
hand slicer for, A49
hard, rotten spots on surface of, A9
Herrgård, influence of aroma bacteria on, A64
mold growth on,
antibiotics in prevention of, A42
chemicals in prevention of, A42
phosphatase activity in, A10
process for making, A64
processed,
bacterial spoilage of, A76
made with vegetable oils, A76
manufacture of, A75
use of whey protein in, A75
proteolytic decomposition in, determination of, A65
rusty spots in, cause of, A2
Tilsit, aromatic substances in, A3
use of flavor concentrates from, A17
use of silage milk in making, A89
Cheese curing rooms, fungistatic wall paint for, A3
Cheese dispenser, A17
Cheese flavor, blue cheese, synthetic, A17
Cheese hoop, conical-type, A49
Cheese industry, trends in, A17
Cheese making,
relation of enzymes to, A17
use of silage milk in, A89
Cheese milk, prevention of butyric acid fermentation in, A89
Cheese press, A75
Cheese product,
dehydrated, A17
dried, A17
Cheese products, roasted, A3
Cheese rind, cause of whey pockets in, A2
Cheese wrapper, flexible, A75
Chemical products, from milk, A77
Chlorides,
plasma, amperometric titration of, A58
urine, amperometric titration of, A58
Chromatography,
enzyme detection by, A57
of reducing substances, from mammary gland, A84
separation of fatty acids by, A90
Churn,
metal, A87
metal surface for, A2
Citrus products, dried, effect on milk flavor, A5
Cleaner, acid, and detergent, A61
Cleaner-sanitizers, for farm utensils, A46
Cleaning methods,
for dairy plant, A85
for permanent pipelines, A85
Clostridium propionicum, mechanism of propionic acid formation by, A50
Cocoa-milk beverage concentrate, A56
Colostrum, absence of bacteriophage in, A10
Committee on dairy industry equipment, progress report of, A23
Cooler,
electric dry box, for farm cream, A87
for milk in cans, A93, A94
Cooling tank,
can handling device for, A81
farm, A81, A93
Copper, in butter, determination of, A87
Cows, (also see "cattle")
anti-kicking device for, A54
cervical mucosa changes during estrus in, A37
feed supplement for, A80
fertility of, effect of Ca and P intake on, A5
heritability of udder proportion in, A92
Jersey, relationship of type and butterfat production of, A92
keeping fly free, A93
prevention of eversion of uterus of, A80
system of milking, A93, A94
teat dilator for, A59
teat protector for, A80
Cowshed,
rubber floors in, A93
Swedish, A93
Cream,
dispenser opening for, in paper bottles, A84
farm coolers for, dry box, electric, A87
gas-whipped,
apparatus for making, A61
container for, A28
dispenser for, A28
production of, A39
quality of, electric farm coolers and, A16
sterilized, processing of, A83
Cream remover, for glass milk bottles, A6
Cryptococcus neoformans, association with mastitis, A63
Cultured milks, reasons for increased use of, A57

DAIRY BACTERIOLOGY, problems in, A89
Dairy barn,
mechanical gutter cleaner for, A54
pen type, A24
ventilation of, A24
Dairy equipment, cleaning of, time and motion analysis of, A7
Dairy industry,
bimetallic thermometer for, A79
federal pricing programs for, A23
future trends in, A58
merchandising in, A79
prevention of labor turnover in, A12

role of research in, A80
trends in U. S. in, A80
use of chemical germicides in, A30
waste disposal problems of, A78
work simplification in, A79
Dairying in Brazil, A96
Dairy plant equipment, sanitation of, A46
Dairy plants,
cleaning techniques for, A85
factors in designing, A52
new construction for, A78
new designs for, A78
reducing milk waste in, A23
requirements of safety program for, A52
streamlining receiving operations in, A52
Dairy products,
chloride determination for, A21
dried, packaging of, A17
increased sales by merchandising, A79
low-fat semi-frozen, A70
manufacture of, A79
prevention of rancid flavors in, A90
refrigerated, self-service cabinet for, A60
Dairy research, importance of color photography in, A91
Dairy research problems, in Sweden, A96
Dairy wastes,
disposal of, A78
treatment of, A52
Dating, of bottled milk, A55
Defoamer, for paper milk bottles, A83
Dehorning tool,
mechanical, A37
using heat, A37
Detergents, field test for evaluation of, A85
Diacetyl, produced with *S. diacetylactis*, A43
Dietary needs, for fats, A85
Direct microscopic count,
importance of clean glass slides in, A89
use of 0.01 ml. syringe in, A64
Disaster, civil, milk control planning in, A83
Dispenser,
for butter, A75
for canned evaporated milk, A34
Display case, refrigerated, self-service, for dairy products, A60
Drying operation, multiple unit, central control for, A49
Dwarfism,
in Aberdeen-Angus cattle, A93
in Hereford cattle, A93

EGGS, preservation of, A57
Electric current, effect on milk flavor, A97
Employee grievances, handling of, A24
Enzyme, lytic, from lactic streptococci, A19
Enzymes,
chromatographic detection of, A22, A57
in cheese making, A17
Equipment, dairy plant, circulation method of cleaning, A46
Escherichia coli,
in pasteurized milk, Ringeling test for, A18
media for identification of, A3
Estrogen, effect on electrolyte levels in bovine body fluids, A7
Estrus, cervical mucosa changes during, A37
Extraneous matter,
in butter, A73
in cheese, control of, A75
Extrusion device, for butter, A75

FAT DETERMINATION,
in cheese,
Gerber test for, A21
by Roeder method, A34
in dried milk, A34
in milk,
by Gerber test, A34
by Rose-Gottlieb method, A34
Fat globules, birefringent layer of, physical structure of, A87
Fat tissue, methoxychlor in, determination of, A43
Fats,
dietary need for, A85
peroxides in, iodometric determination of, A57
Fatty acids,
binding of, to serum albumin, A4
in summer butter, A90
separation of, by chromatography, A90
synthesis of, acetate utilization in, A39
Feed supplement, A80
Feed, thyroprotein, method of making, A67
Fermentation, heterolactic, products of, A20
Field tests, for detergent evaluation, A85
Flies, on cattle,
insecticides for, A93
sprayers for, A93
Fluoridation, of milk, A84
Fluorine, in water, effect on cattle, A41
Food, irradiation of, evaluation of degree of, A43
Food distribution, changes in pattern of, A79
Food handlers, bacteria on hands of, A3
Food product, from whey, A50
Food products,
liquid bottled, sterilization of, A88
spray dried, gas packing of, A88
Foods, canned,
continuous sterilizer for, A36, A88
cooling of, A78
processing of, A78
Foods, liquid, heat processing of, steam injection for, A35
Foodstuffs, radiation treatment for preservation of, A57
Food supplement, for poultry, A88
Food venders,
automatic, A24
for ice cream, A27, A60, A69
for milk, All, A84, A96
sanitary aspects of, A30
Fortified skimmilk,
flavor of, A96
keeping quality of, A96
Frozen confection, A70, A81
apparatus for making, A44
bagging of, A95
continuous freezer for, A26
drying of, A95

freezer for, A27
mold for, A27
mold defroster for, A27
packaging method for, A69
vegetable fats in, A70
with vegetable fat, legal definition of, A14
Frozen custard machine, A94
Frozen desserts,
vegetable fats in, A82
vegetable oils in, A95
Fructose, heterolactic fermentation of, products of, A20

GALACTOSE, synthesis of, in mammary gland, A71
Galactose-containing compound, from mammary gland, A84
Genital tract, bovine, pleuropneumonia-like organisms from, A15
Germicides, chemical, use of, A30
Glucosan, produced by rumen protozoa, A24
Glucose,
as precursor of lactose, A71
conversion to galactose in mammary gland, A71
Goat, rumen digestion studies on the, A92
Grain, moisture determination of, A80
Growth promoting factors, for *L. casei*, chromatography of, A10

HARDENING TUNNELS, for ice cream, A94
Hay, moisture determination of, A80
Heat exchanger, continuous, for food products, A52
Heifers,
fertility of,
effect of Ca and P intake on, A5
phosphorus intake and, A68
ovarian activity of, phosphorus intake and, A68
Holder, for ice cream cans, A82
Homogenizer,
centrifugal type, A44, A58
for milk, A36
Hydrogen peroxide, use in canning fresh milk, A71
Hyperkeratosis, bovine, attempts to produce, A1

ICE CREAM,
banana puree for, frozen, A54
black walnut oil flavoring for, A26
building half-gallon sales of, A14
bulk, in dips, A82
butter oil in manufacture of, A81
candy as flavor source for, A13, A38
citrus flavor for, A69
continuous freezing of, A68
cost of, trends in, A12
delivery of, on retail routes, A38
emulsifier for, A81
half-gallons packaged automatically, A95
hardening tunnels for, A94
high fat, A12, A69
home freezer storage for, A27
ice-cream-a-teria for, A14
insulated "carry home" bags for, A38
insulated overwrap package for, A13, A27, A60
liquor ice, A95
low lactose solids for, A25
manufacture of,
new method of, A6
with compressed refrigerant, A68
merchandizing of, consumer research as an aid in, A60
novel retail outlet for, A82
nuts for, A13
overrun control of, A69
price for, relation of profit to, A53
profits in, relation of prices to, A53
retail prices for, A70
sales analysis of, A60
scoop for pie-shaped portions of, A60
shrinkage of, A37, A82
factors affecting, A45
soft, mixes for, A12
softened, apparatus for making from hard ice cream, A66
stabilization of fruit for, A69
stabilization of frozen fruit for, A26
stabilizer for, A54, A81
stabilizers for, study of, A25
state standards of, for 1951, A14
sugar content preferred, A94
vanilla, flavor of, effect of sugar on, A68
variegated,
method of making, A26
stabilizers for, A45
vending machines for, A27, A60
walk-in delivery truck for, A13
whipping apparatus for, A66
Ice cream agitator, A66
Ice cream bar,
automatic production of, A13
wrapper for, A38
Ice cream bon-bons, A13
Ice cream cabinets, self-service, A27
Ice cream cake, mold for precut, A27
Ice cream cans, holder for, A26, A82
Ice cream cone, automatic machine for filling, A27
Ice cream composition, need for revaluation of, A25
Ice cream container, half-gallon, standardization of, A26
Ice cream dipper, A6
Ice cream emulsifier, A81
Ice cream freezer, A44, A66, A78
continuous, A26
ice and salt type, A26
portable, motor driven, A68
support for, A54
Ice cream hardening rooms, new developments in, A51
Ice cream industry,
history of, A12
role of credit in, A46
Ice cream management, statistics for, A11

Ice cream mix,
continuouus process for making, A94
fat tests for, A21
HTST pasteurization of, A12, A45
effect of, A25
in vacreator, A26
modified Babcock test for, A82
pasteurized, addition of emulsifiers to, A45
production tips, A12
pushbutton mixing of, A94
Ice cream novelties,
mold for, A27
mold defroster for, A27
mold for precut cake, A27
Ice cream parfait pie, A69
Ice cream plants,
cleaning aids for, A46
modernization benefits in, A59
simplified laboratory equipment for, A45
Ice cream research, progress in, A59
Ice cream sales,
by vending machines, A69
in food stores, A69
of bulk ice cream, A70
on retail milk routes, A46
retail outlet for, A82
Ice cream sandwiches,
automatic process for, A13
carton for making, A55
Ice cream stabilizer, A81
Ice cream stabilizers, study of, A25
Ice cream trucks, refrigeration of, take-off power units for, A46
Ice milk,
low-fat, high-protein, A60
mixes for, A70
Infrared lamps, for softening butter, A57
Inhibitory substances, in milk, testing for, A65
Insulin, effect on fat synthesis, A97
Ion exchange resins,
lactose purification with, A21
lactose recovery with, A21
Iron, in butter, determination of, A87

JOHNIN TEST, on cattle sensitized with *M. paratuberculosis*, A1

LABORATORY EQUIPMENT, simplified for ice cream plant, A45
Lactalbumin,
for human consumption, A77
hydrolyzing process for, A35
purification of, A90
Lactic acid,
colorimetric determination of, A90
in silage, determination of, A35
Lactic streptococci, in Edmonton milks, A76
Lactobacilli, antibiotic from, A20
Lactobacillin, from lactobacilli, A20
Lactobacillus casei, growth stimulating factors for, A10
Lactose,
purification of, ion exchange resins for, A21
recovery of,
from mother liquor, A35
ion exchange resins for, A21
synthesis of, from glucose, A71
Lactose syrup, noncrystallizing, A50
Leptospirosis, experimental, in calves, A1
Leuconostoc specie, cause of gas defect in cheese, A89
Liquor ice, A95
Lysozyme, preparation of, from ass milk, A58

MAMMARY GLAND,
anatomy of, A49
experimental Q fever infection in, A15
galactose-containing compound from, A84
glucose conversion to galactose in, A71
reducing substances from, A84
Mammary gland extracts, sugar chromatography of, A84
Manganese, in butter, determination of, A87
Margarine, bacteriological studies on, A3
Mastitis,
antibiotic treatment of, problems caused by, A3
bacteria causing, effect of QAC on, A65
Cryptococcus neoformans as cause of, A63
Media,
for identification of *E. coli*, A3
for plating milk, A64
Methoxychlor, in fats, determination of, A43
Methylene blue test, compared to resazurin test, A34
Microorganisms, in butter, catalase test for detection of, A87
Milk,
agitation of, by air, A11
ass, lysozyme prepared from, A58
bottled,
dating of, A55
sterilization of, A88
bulk,
dispenser for, A84
handling on the farm, A83
butyric acid fermentation in, prevention of, A89
calcium ions in ultrafiltrate from, A66
canned, puncturing dispenser for, A76, A88
canned fresh, A61, A71, A83
cartoned, refrigeration device for, A96
characteristics of, effect of antibiotics on, A19
chemicals obtained from, A77
chloride determination for, A21
chocolate,
nutritional value of, A29
place in school lunchroom, A56
clarification of, study of, A27
class II, pricing of, A58
cold, separator for, A58
coliform organisms in, A18
concentrated, manufacture of, A76
constituents of, effect of heat on, A21
cooling tank for, A81, A93, A94
cows', added to human milk, detection of, A78
dating of, A91
delayed cooling of, bacterial growth during, A50

delivery costs of, reducing, A53
determination of 2,4-D in, A22
direct microscopic grading of, A43
  importance of clean glass slides in, A89
  use of 0.01 ml. syringe in, A64
distribution of,
  between separator discs, A4
  trends in, A53
door-step delivery, pros and cons of, A53
dried,
  analysis of with nomograms, A88
  apparatus for removing from drier drum, A58
  conveyor for, A36
  device for reconstituting, A18
  gas packing of, A88
  Gerber- van Gulik fat test of, correction equation for, A34
  lactates in, detection of, A90
  maintaining uniformity in, A33
  microscopic examination of, A33
  neutralizers in, detection of, A90
dye reduction time of, refrigerated storage and, A43
Edmonton, lactic streptococci in, A76
effect on life span of rats, A84
equilibrium systems in, A90
evaporated,
  dispenser closure for cans of, A6
  plastic dispenser for cans of, A34
  puncturing dispenser for, A76, A88
  sweet curdling of, A88
  thermal resistance of *B. subtilis* in, A9
farm cooler for, A81, A93, A94
fat emulsion in, chemistry of, A10
fat test for,
  Gerber, A34
  Rose-Gottlieb, A34
fatty acids of, acetate in synthesis of, A39
flavor of,
  clover in pastures and, A91
  effect of dried citrus products on, A5
flocculation of casein in, A77
flow line sampler for, A52
fluoridated, A84
freezing point values for, A22
fresh concentrated, A34
Friesian, composition of, A90
home pasteurizer for, A95
homogenized, control of sediment in, A28
homogenizer for, A36
human,
  composition of, A29
  cows', milk added to, detection of, A778
  processing and use of, A29
inhibitory substances in, testing for, A65
Jersey, composition of, A38
lactates in, detection of, A90
media for plating, A64
methoxychlor in, determination of, A43
Mycobacterium in, A88
neutralizers in, detection of, A90
New Zealand, riboflavin content of, A29
non-fat dry,
  cheese milk standardized with, A75
  in bread, consumer preference for, A6
  in breadmaking, use of, A33
oxidized flavor in,
  electric current and, A97
  influence of feed upon, A67
packaging of, trends in, A53
paper container for, A39, A70
pasteurization of, compulsory, reasons for, A50, A70, A83
pasteurized,
  bacterial count after refrigerated storage of, A64
  by high frequency current, A35
  coliform bacteria in, A50
  E. coli in, Ringeling test for, A18
pH of, relationship of titratable acid to, A4
phosphorus-containing compounds of, A77
phosphorus partition in, A97
preservation of,
  by radiation, A28
  methods of, A10
  use of soluble chlorites for, A19
psychrophilic bacteria in, A89
quality of, nitroreductase test in evaluating, A18
raw, psychrophilic bacteria in, A89
reconstituted, for fluid purposes, A33
refrigerated, dye reduction time of, A43
removal of entrapped air from, A23
resazurin test for, A89
sales of,
  in half-gallon containers, A55
  utilizing nutrition research in, A61
skim,
  cultured, effect on growth of pigs, A57
  titration curve for, A96
  vitaminized, fortified,
    flavor of, A96
    keeping quality of, A96
soft curd, A29
strainer for, A81
tanker pick-up of, A55
temperature conditioning tank for, A28
titratable acidity of, relationship to pH, A4
udder samples of, tray for examining, A37
vending machines for, A5, A11, A84, A96
Milk agitator, for milk cans, A37
Milk boiler, A71
Milk bottle,
  cap and closure for, A6
  capping device for, A52
  case for, A28
  cream remover for, A6
  doorstep holder for, A96
  foil cap for, A95
  for preventing light-induced off-flavors, A70
  holding rack for, A28
  household holder for, A28
  laminated foil caps for, A96
  paper, A39, A70
    Canco type,
      lip protector for, A96
      with water-shedding top, A84
    cream dispenser in, A84
    filler for, A39
    plastic holder for, A84
    pouring device for, A71
    waxes for, A95

Milk can, A81
agitator for, A37
conveyor for, A5
cooler for, A45
dumping apparatus for, A66
evaporated,
holder for, A76
punch for, A18, A76, A88
hand cart for transporting, A6
lifting device for, A81
siphon for filling, A83
vacuum filling of, A81
Milk can conveyor lines, control of milk intake by, A51
Milk consumption, in the world, A56, A70
Milk control plans, for civil disaster, A83
Milk cooler, farm, A81, A93, A94
side opening, A94
Milk cooling tanks, coldwall, A93
Milk drinks,
bacterial counts of, A95
cocoa-milk concentrate for, A56
mixing machine for, A55
Milk ejection, effect of stimulus on hormone for, A29
Milk fat emulsion, chemistry of, A10
Milk fat synthesis,
effect of insulin on, A97
from acetic acid, A97
Milk filter, A38
Milk flavor,
effect of dried citrus products on, A5
electric current and, A97
Milk plant equipment, sanitation of, A46
Milk plants, also see "dairy plants"
Milk processing, control systems for, A23
Milk product, for breadmaking,
from skimmilk, A76
from whey, A76
Milk production, of the world, A56, A70
Milk products,
as poultry feed supplement, A88
coliform organisms in, A18
moisture tester for, A58
pricing regulations for, relationship of public health to, A31
sales of, utilizing nutrition research in, A61
Milk protein products, A35
Milk proteins,
rabbit, blood amino acids incorporated into, A39
recovery process for, A77
Milk quality, sediment testing program and, A38
Milk routes, frozen orange concentrate on, A11
Milk samples,
composite, refrigerated cabinet for, A28
preservation of, A66
Milk sanitation ratings, A61
Milk secretion, two-phase theory of, A29
Milk shipments, interstate, national program for, A60
Milk solids-not-fat, need for price revision of, A91
Milk storage rooms, aluminum reflective insulation for, A51
Milk strainer, A6, A81
enclosed, disc-type, A37
Milk substitutes, for infants, A76
Milk supply,
for Rio de Janeiro, A96
improvement program for, A19
Milk tank cars, rail, mechanical refrigeration units for, A51
Milk tanks, shaft sealing arrangement for, A66
Milk truck, delivery, refrigerated, A28
Milks, fermented,
preparation of, A77
properties of, A77
Milk venders, A5, A11, A84, A96
automatic, A96
Milking barn, design for, A59
Milking machine, A44, A81, A94
aliquot sampler for, A44
automatic teat cup release for, A6
control device for, A25
cooling attachment for, A94
discharge device for, A37
milker claw for, A37
milk trap for, A25
portable, A6
rubber parts of, lye solution for, A7
sampling attachment for, A6
teat cup liner for, A6, A81
Milking machine parts, circulating cleaning device for, A61
Mixer, for milk drinks, A55
Moisture determination, of feeds, A80
Moisture tester, Dietert, A58
Mold growth, on cheese,
antibiotics for prevention of, A42
chemicals for prevention of, A42

NEUTRALIZERS, detection of,
in dried milk, A90
in fluid milk, A90
Nipagin, prevention of mold growth on cheese with, A42
Nisin,
assay method for, A20
assay of, by resazurin test, A34
production of by *S. lactis*, A19
Nomograms, in analysis of dried milk, A88

OESTRUS, in cattle, suppression of after mating, A68
Oily flavor, in butter, unsaturated carbonyl compounds and, A65
Oleomargarine, bacteriological studies on, A3
Oxidized flavor, in milk,
electric current and, A97
influence of feed on, A67

PAINT, fungistatic, testing of, A3
Pasteurization,
by high frequency current, A35
compulsory, reasons for, A50, A70, A83
efficiency of, evaluation of, A9
HTST, of ice cream mixes, A12, A25, A26

Pasteurizer, A95
HTST, testing of type 2 SKd, A35
Penicillin, effect on *Staph. pyogenes* mammary infections, A41
Peptides, spectrophotometric analysis of, A4
Peroxidase, salivary, A30
Peroxides, in fat, iodometric titration of, A57
Phosphorus intake, effect on,
cattle fertility, A5
heifer fertility, A68
ovarian activity of heifers, A68
Photography, color, importance in dairy research, A91
Pigs, growth of, effect of cultured skimmilk on, A57
Pipelines, permanent,
cleaning and sanitizing, A30
cleaning of, A85
for dairy barns, A81
Piping, glass, in milk plants, A30
Polysaccharides, action of rumen protozoa on, A36
Pricing regulations, relationship of public health to, A31
Pro-oxidants, effect on butter storage life, A16
Propionic acid, formation of,
by *Cl. propionicum,* A50
by propionibacteria, A20
by rumen bacterium, A20
by *Veillonella gazogenes,* A20
Protein molecules, structure of, A89
Protein, recovery of from whey, A58
Proteins,
iodination of, A44
milk, recovery process for, A77
plant, vitamin B_{12} from, A44
whey, precipitation with sulphite liquor, A11
Proteolytic decomposition, of cheese, determination of, A65
Protozoa, of the rumen,
action on carbohydrates, A36
glucosan from soluble sugars by, A24
Psychrophilic bacteria,
in market milk, A89
in milk and cream, A9
in raw milk, A89

Q FEVER, experimental, in bovine mammary gland, A15
Quaternary ammonium compounds,
effect on organisms causing mastitis, A65
single-reagent field test for, A47

RADIATION, preservation of foodstuffs by, A57
Rancid flavors, protecting dairy products from, A90
Reducing substances, from mammary gland, A84
Refrigerant, compressed, use in making ice cream, A68
Refrigeration device, for cartoned milk, A96
Refrigeration units, mechanical, for rail tank cars, A51
Resazurin test,
compared to methylene blue test, A34
for nisin assay, A34
use of prepared vials in, A89
Resins, ion exchange,
lactose purification with, A21
lactose recovery with, A21
Restraining device,
for cattle, A25, A59, A80
for domestic animals, A37
Ringeling test, for *E. coli* in pasteurized milk, A18
Ring test, bovine brucellosis diagnosis by, A16
Rose-Gottleib flasks, apparatus for safe evaporation of, A90
Rumen,
aerobic bacteria in, A92
bovine, carbohydrate breakdown in, A36
Rumen bacteria, aerobic, A92
Rumen contents, cellulolytic power of, A92
Rumen digestion studies, on the goat, A92
Rumen protozoa,
action on carbohydrates, A36
glucosan from soluble sugars by, A24

SALES, of dairy products, through merchandising, A79
Sampler, flow line, for milk, A52
Sediment test, card for holding, A66
Semen,
antibiotics in, effect of on *V. fetus,* A67
collection of, transmission of *T. foetus* during, A68
fertility of,
effect of antibiotics on, A67
effect of sulfanilamide on, A67
V. fetus in, effect of antibiotics on, A67
Separator,
cold milk, A11, A58
for producing cheese curd, A17
power washing, A78
self cleaning, A23
Separator discs, machine for cleaning, A7
Serum carotene, parturition and, A35
Serum vitamin A, parturition and, A35
Sheeting, resistant to war gases, from casein, A78
Sherbet, yogurt, A95
Silage,
hay-crop, brewers grains as preservative for, A67
lactic acid in, determination of, A35
moisture determination of, A80
Silage milk,
oxidizing agents used with, A89
use of in cheese making, A89
Spermatozoa, fertility of, after freezing, A59
Spoilage, of cottage cheese, control of, A49
Spray drier, A18
centrifugal wheel type, A18
Stanchion, A54
adjustable, A25
release mechanism for, A80
Standard plate count ratios, A10
Staphylococcus pyogenes, mammary infections due to,

effect of dihydrostreptomycin on, A41
effect of penicillin on, A41
Sterilization, of dairy utensils, by flame, A50
Sterilizer, continuous, for canned foods, A36
Streptococci, lactic, lytic enzyme from, A19
Streptococcus, yellow pigmented species, A21
Streptococcus diacetylactis, production of diacetyl by, A43
Streptomycin, dihydro, effect of *Staph. pyogenes* mammary infections, A41
Streptozyme, from lactic streptococci, A19
Sucrose, products from heterolactic fermentation of, A20
Sugar content preferred in ice cream, A94
Sulfanilamide, effect on fertility of bovine semen, A67
Sulphur dioxide, casein hydrolysis with, A78

TANK,
stock, electric water heater for, A25
storage, cold wall, A58
Tank truck, milk collection by, A55
Teat dilator, A59
Teats, cows', protective sheath for, A80
Thermometer, bimetallic, for dairy industry, A79
Thiouracil,
effect on carotene digestibility, A91
effect on P and N fractions in milk, A97
Thyroprotein, synthetic, production of, A29
Thyroprotein feed, method of making, A67
Thyroxine, effect on,
carotene digestibility, A91
P and N fractions in milk, A97
Thyroxin, mode of action of, A30
Treponema pallidum, survival factor for, from beef serum, A4
Trichomonas foetus, transmission of, during semen collection, A68
Tripeptidase, from calf thymus, A30

UDDER,
elimination of infection from, behavior of quarters after, A63
heritability of proportions of, A92
perfused, milk fat synthesis in, from acetic acid, A97
Utensils, farm,
cleaner-sanitizers for, A46
flame sterilization of, A50
Uterus, preventing evertion of, A80
Urea,
ingested, influence on wool production, A44
utilization by sheep, influence of starch on, A44

VACUUMIZER, to remove entrapped air from milk, A23
Vacuum pan, continuous operation of, A66
Vegetable fat frozen dessert, legal definition of, A14
Vegetable fats,
in frozen desserts, A82
threat to dairy industry of, A91
Vegetable oils, in frozen desserts, A95
Vending machines,
for ice cream, A27, A60
for milk, A5, A11, A84, A96
ice cream sales by, A69
sanitary aspects of, A30
Vibrio fetus, in bovine semen, influence of antibiotics on, A67
Vibriosis, in cattle, A63
Vitamin B_{12}, from plant proteins, by anaerobic fermentation, A44
Vitamin B_T,
distribution of, A61
effect of, A61
Vitaminized skimmilk,
flavor of, A96
keeping quality of, A96

WATER, analysis of, for Cu, Pb and Zn, A66
Watering device, for animals, A37
Waxes, for paper milk bottles, A95
Whey,
food product from, A50
pH of, relationship of titratable acidity to, A4
protein recovery from, A58
titratable acidity of, relationship of pH to, A4
Whey protein,
cheddar, enzymatic hydrolysis of, A18
used in process cheese, A75
Whey product, dried, for breadmaking, A76
WIA test, effect of use of excess alkali in running, A22
Wool production effect of ingested urea on, A44
Work simplification, A79
Wrapping machine, for print butter, A57

YOGURT, reasons for increased use of, A57
Yogurt sherbet, A95

AUTHOR INDEX OF ABSTRACTS[1]

ABBOTT, C. H., machine for cleaning separator disks, A7

ABMA, R. R., dry skimmilk in breadmaking, A33

ACTON, R. D., self-washing separator, A23

ADAMS, F., precut ice cream cake mold, A27

ADLER, L., butter coloring tablet, A74

AHLMANN, S. W., WIA of continuous churned butter, A22

AIKEN, W. H., resistant sheeting from casein, A78

ALBERTS, R., future of milk solids, A91

ALBERTY, R. A., binding of chloride ion to bovine serum albumin, A4

ALIFAX, R., phosphatase activity in cheese, A10

ALISON, F., detecting the addition of cow's milk to mother's milk, A78

ALLCROFT, R., lead poisoning in cattle and sheep, A5

ALLGEIER, R. J., B_{12} from fermenting plant proteins, A44

ALSTRAND, D. V., sterilizing canned foods, A78

AMBERSON, J. M., mastitis due to *Cryptococcus neoformans,* A63

ANDERSON, A., central control for multi-dryer operation, A49

ANDERSON, A. E., cow stanchion, A54

ANDERSON, D., skin grafting between bovine twins, A59

ANDERSON, E. O., microscopic grading of raw milk, A43

ANDERSON, G., ice cream hardening room design, A51

ANDERSON, G. W., prophylactic for calf scours, A44

ANDERSON, K. L., performance of Danish HTST pasteurizer, A35

ANDERSON, Z. E., need for fat in diet, A85

ANDRE, E. R., milk defoamer for bottles, A83

ANGEVINE, N. C., cottage cheese manufacture, A76

ANONYMOUS, a liquor ice, A95; automatic process for ice cream bar, A13; automatic process for ice cream sandwiches, A13; bulk ice cream in dips, A82; cheese food product, A17; chocolate milk in school lunchroom, A56; citrus flavor for ice cream, A69; cold milk separators, A11; control of mold growth on cheese, A42; creative milk processing, A79; dairy cleaning techniques, A85; flavor for ice cream, A68; fluoridated milk, A84; frozen orange concentrate on milk routes, A11; Gerber fat test for milk, A34; high fat ice cream, A12, A69; ice-cream-ateria, A14; ice cream bon-bons, A13; ice cream cost trends, A12; ice cream flavor preference, A94; ice cream on retail routes, A38; ice cream on retail milk routes, A46; ice cream parfait pie, A69; ice cream sales analysis, A60; ice cream venders, A27; insulating overwrap for ice cream carton, A13, A27, A60; legal definition for vegetable fat frozen dessert, A14; low-fat, high-protein ice milk, A60; mechanically refrigerated rail cars for milk, A51; milk sales in half-gallon containers, A55; milk sanitation honor roll, A61; milk venders, A11, A84; novel ice cream retail outlet, A82; nutritional value of chocolate milk, A29; power take off unit for refrigerating trucks, A46; reducing delivery costs, A53; reflective insulation for milk storage rooms, A51; retail ice cream prices, A70; salesmen's auto expense allowance, A79; selling ice cream in food stores, A69; state ice cream standards for 1951, A14; vegetable-fat frozen dessert, A70; walk-in ice cream deliv(y truck, A13; Yogurt sherbet, A95

ARBUCKLE, W. S., HTST mix pasteurization, A26; stabilized fruit for ice cream, A69

ARNOTT, D. R. L., non-washed butter, A74

ARONSON, A. S., statistics and ice cream management, A11

ASSELSTINE, H. G., pushbutton liquid mixing, A94

ASSOCIATION of Food Industry Sanitarians, Inc., *Sanitation for the Food Preservation Industries,* A49

ATTERLING, J. W. L., test milking apparatus, A44

AUCH, D. W., ice cream can holder, A82

AULL, W. F., JR., stabilizers for variegated ice cream, A44

AVIDOR, J., whey protein in process cheese, A75

AYRES, D. F., milking machine, A44

BABAD, J., whey protein in process cheese, A75

BABCOCK, S. M., coliform organisms in dairy products, A18

BAIN, J. M., making Canadian cheddar cheese, A75

BAKER, B. E., hydrolysis of casein, A78; sulphite liquor as whey protein precipitant, A11

BAKER, M. L., dwarf Aberdeen-Angus cattle, A93

BALDAUSKI, F. A., chemicals from milk, A77

BALDWIN, R. R., effect of heat on amino acids of casein, A6

BALLARIN, O., equilibrium systems in milk, A90

BALMAIN, J. H., effect of insulin on fat synthesis, A97

BARBER, F. W., evaluation of pasteurization efficiency, A9; HTST ice cream mix pasteurization, A12; mix pasteurization in vacreator, A26

JOURNAL
OF
DAIRY SCIENCE

VOLUME XXXV
JANUARY, 1952, TO DECEMBER, 1952

1952
THE AMERICAN DAIRY SCIENCE ASSOCIATION
THE OHIO STATE UNIVERSITY, COLUMBUS, OHIO

CONTENTS

JANUARY, NO. 1

Stability of Milk and its Concentrates in Frozen Storage at Various Temperatures. R. W. BELL AND T. J. MUCHA 1

The Effect of DDT upon the Digestion and Utilization of Certain Nutrients by Dairy Calves. VERLE R. BOHMAN, I-LUN ALLEN CHI, LORIN E. HARRIS, WAYNE BINNS AND LOUIS L. MADSEN 6

The Effect of Heating Cream in a Small-tube Heat Exchanger on Some of its Properties. E. O. HERREID, K. M. SHAHANI, C. J. DUPUY AND P. H. TRACY 13

The Origin of Oxidized Flavors and Factors Responsible for their Development in Milk and Milk Products. VLADIMIR N. KRUKOVSKY 21

Unidentified Dietary Factors in Dairy Cattle Nutrition. I. Digestibility of Peanut Hulls and their Use in "Ballast" Studies with Milking Cows Depleted on Hay Alone. C. F. HUFFMAN AND C. W. DUNCAN 30

Unidentified Dietary Factors in Dairy Cattle Nutrition. II. Further Evidence of an Unidentified Factor(s) in Grain Needed to Balance Roughage for Milk Production. C. F. HUFFMAN AND C. M. CHANCE 41

The Presence of Aureomycin in Milk and its Effect on Cheese Making and Starter Activity. ALEC BRADFIELD, L. A. RESI AND D. B. JOHNSTONE 51

The Alpha-Napthol phthalein (ANP) Method for Measuring Fat Hydrolysis. I. Application to Butter. T. V. ARMSTRONG AND W. J. HARPER 59

The Effect of Progesterone on Ovulation Time in Dairy Heifers. WILLIAM HANSEL AND GEORGE W. TRIMBERGER 65

Effect of the Administration of Unfractionated Gonadotrophic Pituitary Extracts during Estrus on Time of Ovulation in the Bovine. GERMAIN B. MARION AND VEARL R. SMITH 71

Some Properties of Freeze-dried Milk. T. A. NICKERSON, S. T. COULTER AND ROBERT JENNESS 77

Association Announcement (Call for Papers) 86

Officers and Committees of the Association 88

Abstracts of Literature A1

FEBRUARY, NO. 2

Effect of Antioxidants in the Control of Oxidized Flavor Development in Stored Frozen Cream. I. Use of Ethyl Caffeate, Sustane, Tenox II and Tenox BHA. A. J. GELPI, JR., L. L. RUSOFF AND R. D. SKOLE 93

Field-cured and Field-baled Alfalfa Hay Versus Artificially Dried and Chopped and Pelleted Alfalfa Hays as a Source of Carotene and Roughage for Guernsey and Holstein Calves. H. D. EATON, K. L. DOLGE, R. D. MOCHRIE, J. E. AVAMPATO AND L. A. MOORE 98

Factors That Affect the Formation of a Crystalline Deposit in Evaporated Milk. E. F. DEYSHER AND B. H. WEBB 106

The Ammonia Content and Formal Titration of Roller-dried Buttermilks as Indices of the Quality of the Source Creams. V. C. VAN DEVENDER, JR., H. G. LYON AND E. W. BIRD 116

Nutritive Values of Crops and Cows' Milk as Affected by Soil Fertility. II. The Essential Amino Acids in Colostrum and Milk Proteins. C. W. DUNCAN, GERTRUDE I. WATSON, K. M. DUNN AND R. E. ELY 128

Cytochemical Reactions of Bovine Spermatozoa and Seminal Plasma. R. M. MELAMPY, L. F. CAVAZOS AND J. C. PORTER 140

The Intracellular Proteinases of Certain Organisms from Cheese and their Relationship to the Proteinases in Cheese. L. E. BARIBO AND E. M. FOSTER 149

Observations on the Tactual Flavor Qualities of Heated Milk. STUART PATTON AND DONALD V. JOSEPHSON 161
Fluorescence and Associated Changes Produced upon Storage of Evaporated Milk. H. D. SIMONSON AND N. P. TARASSUK 166
The Relationship of Milk Energy and Total Protein to Per Cent Fat in Brown Swiss Herd Milk. S. D. MUSGRAVE AND G. W. SALISBURY 174
Abstracts of Literature A9

MARCH, NO. 3

Factors Associated with the Duration of Gestation in Dairy Cattle. W. J. BRAKEL, D. C. RIFE AND S. M. SALISBURY 179
Frozen Homogenized Milk. VIII. Effect of the Addition of Sucrose and Ascorbic Acid on the Keeping Quality of Frozen Homogenized Milk. C. J. BABCOCK, D. R. STROBEL, R. H. YAGER AND E. S. WINDHAM 195
Genetic Correlation between Type and Production in Jersey Cattle. WALTER R. HARVEY AND JAY L. LUSH 199
Toxicological Effect of Toxophene on Dairy Cows. R. E. LEIGHTON, K. A. KUIKEN AND HILTON A. SMITH 214
Pregnancy Interruption and Breeding Techniques in the Artificial Insemination of Cows. N. L. VANDEMARK , G. W. SALISBURY AND L. E. BOLEY 219
Lactation Studies. I. Effect of Gestation. R. E. ERB, MARY M. GOODWIN, R. A. MORRISON AND A. O. SHAW 224
Lactation Studies. II. Effects of Estrus. R. E. ERB, MARY M. GOODWIN, R. A. MORRISON AND A. O. SHAW 234
Seasonal Changes in Fertility of Dairy Bulls in Northwestern Washington. R. E. ERB AND D. R. WALDO 245
The Bull as One Cause of Delayed Returns to Service in Artificial Breeding. G. W. SALISBURY, B. W. BRATTON AND R. H. FOOTE 250
The Effect of Time and Other Factors on the Non-return to Service Estimate of Fertility Level in Artificial Insemination of Cattle. G. W. SALISBURY, R. W. BRATTON AND R. H. FOOTE 256
The Influence of Antibiotics on Delayed Returns in Artificial Breeding. R. H. FOOTE AND R. W. BRATTON 261
The Effect of Dosage Level and Various Methods of Administration on the Concentration of DDT in Milk. RAY E. ELY, L. A. MOORE, R. H. CARTER, H. D. MANN AND F. W. POOS 266
Separation of α-, β- and γ-Casein. N. J. HIPP, M. L. GROVES, J. H. CUSTER AND T. L. MCMEEKIN 272
Abstracts of Literature A15

APRIL, NO. 4

The Absorption of Vitamin A Natural Esters and of Carotene by Young Male Holstein Calves. MAGNAR BONNING AND C. B. KNODT 283
The Copper Content of Butter Made by a Continuous Method. D. E. MILLER AND P. H. TRACY 292
The Liberation of Water-insoluble Acids in Cream by Geotrichum candidum. MICHAEL PURKO, W. O. NELSON AND W. A. WOOD 298
Adaptation of the Barker-Summerson Lactic Acid Method to Ice Cream and Ingredients for Ice Cream. JOY S. NEIDLINGER, C. A. KEMPF AND AUBREY P. STEWART, JR. 305
A Classification for the Identification of Bovine Noseprints. MORRIS HIRSCH, EDMUND F. GRAHAM AND ARTHUR E. DRACY 314
The Rate of Absorption of Vitamin A Natural Esters and of Carotene by Male Holstein

Calves as Measured by Changes in Blood Plasma Levels. MAGNAR RONNING AND C. B. KNODT 320
Preparation of Milk Fat. I. A Study of Some Organic Compounds as De-emulsifying Agents. STUART PATTON 324
Sulfur Dioxide Preservation of Forage Crops. S. R. SKAGGS AND C. B. KNODT 329
Milk Replacements for Dairy Calves. J. H. BRUMBAUGH AND C. B. KNODT 336
The Alpha-naphtholphthalein (ANP) Method for Measuring Fat Hydrolysis. II. Application to Cream. W. J. HARPER AND T. V. ARMSTRONG 342
A Comparison of Bimonthly and Quarterly Testing with Monthly Testing for Estimating Dairy Cattle Production. N. D. BAYLEY, R. M. LISS AND J. E. STALLARD 350
Properties of the Colostrum of the Dairy Cow. VII. pH Buffer Capacity and Osmotic Pressure. R. T. MCINTYRE, D. B. PARRISH AND F. C. FOUNTAINE 356
The Effect of the Various Steps in the Manufacture on the Extent of Serum Protein Denaturation in Nonfat Dry Milk Solids. H. A. HARLAND, S. T. COULTER AND R. JENNESS 363
Association Announcement 369
Announcement, XIIIth International Dairy Congress 370
Abstracts of Literature A33

MAY, NO. 5

Action of Bacteriophage on Mixed Strain Starter Cultures. I. Nature and Characteristics of the "Nascent Phenomenon." E. B. COLLINS 371
Action of Bacteriophage on Mixed Strain Starter Cultures. II. Relation to Acid Production of the Proportion of Resistant Bacteria. E. B. COLLINS 381
The Heat Stability of Evaporated Milk as a Function of the Steam and Hydrostatic Pressure Applied in the Forewarming of Milk. VICTOR NELSON 388
Alterations in Specific Gravity during the Ripening of Bull Spermatozoa. P. E. LINDAHL AND J. E. KIHLSTRÖM 393
The Bacteriology of Surface-taint Butter: A Review. R. O. WAGENAAR 403
Effect of Feeding Various Percentages of Artificially Dehydrated Alfalfa Meal on the Growth and Carotene Intake of Dairy Calves. K. L. DOLGE, H. D. EATON, J. E. AVAMPATO, R. D. MOCHRIE AND F. I. ELLIOTT 424
A Study of Ovulations in Six Families of Holstein-Friesians. H. E. KIDDER, G. R. BARRETT AND L. E. CASIDA 436
Effect of Feeding Methoxychlor-treated Alfalfa Hay to Dairy Cows. C. BIDDULPH, G. Q. BATEMAN, J. R. HARRIS, F. L. MANGELSON, F. V. LIEBERMAN, W. BINNS AND D. A. GREENWOOD 445
Factors Involved in Corrosion of Tinned and Stainless Steel by Milk Acidic Solutions Used in Cleaning Dairy Equipment. THADDEUS LEWANDOWSKI 449
Some Characteristics of the Lipase of Geotrichum cadidum. W. O. NELSON 455
Program, Forty-seventh Annual Meeting 463
Abstracts of Literature A41

JUNE, NO. 6

Abstracts of Papers Presented at the Forty-seventh Annual Meeting 479
Filled Milks for Dairy Calves. III. Comparative Value of Various Soybean Oils and Butter Oil in a Practical Dietary Regime. H. B. BARKER, G. H. WISE AND N. L. JACOBSON 507
The Use of Dehydrated Forages in Dairy Cattle Rations. II. Comparative Values of Finely Ground, Chopped and Pelleted Dehydrated Alfalfa as Grain Replacements for Lactating Dairy Cows. T. H. BOSSER, F. R. MURDOCK, R. E. LINTOTT, R. E. EBB AND A. O. SHAW 515

The Keeping Quality of Whole Milk Powder. IV. The Antioxidant Properties of NDGA and Certain Emulsifying Agents. A. A. Busch, C. W. Decker and U. S. Ashworth 524
The Incidence of Antibiotics, Sulfa Drugs and Quaternary Ammonium Compounds in the Fluid Milk Supply of New York State. F. V. Kosikowsky, R. W. Henningson and G. J. Silverman 533
Herd Data Measures of the Effect of Certain Environmental Influences on Dairy Cattle Production. N. D. Bayley and E. E. Heizer 540
A Proposed Method and Apparatus for the Determination of Extraneous Matter in Roller-dried Milk Powder for Use in Cheese Food Products. L. J. Bianco 550
Gas Production in Cheddar Cheese Caused by Leuconostoc citrovorum. W. W. Overcast and T. W. Albrecht 554
Feeding Value for Milk Production of U. S. No. 3 and Sample Grade Korean Lespedeza Hay. A. G. Van Horn, J. R. Dawson, C. H. Gordon, J. N. Maddux, L. A. Moore, W. H. Hosterman and R. H. Lush 559
Reference Journals Used by Dairy Scientists. G. W. Salisbury 566
Abstracts of Literature A49

JULY, NO. 7

The Effect of Antibiotics on in vitro Cellulose Digestion by Rumen Microorganisms. R. H. Wasserman, C. W. Duncan, E. S. Churchill and C. F. Huffman 571
Riboflavin Studies with Calves. I. Preparation of a Riboflavin-deficient Milk. E. G. Moody, S. M. Hauge and N. S. Lundquist 581
The Relation of Prepartal and Postpartal Mineral Balances to the Occurrence of Parturient Paresis in Dairy Cows. Gerald M. Ward, T. H. Blosser and M. F. Adams 587
The Use of Methoxyl Groups in Forage and Fecal Materials as an Index of the Feeding Value of Forages. C. R. Richards and J. T. Reid 595
Bovine Protein-bound Serum Iodine and its Relation to Age and Breed. J. F. Long, L. O. Gilmore, G. M. Curtis and D. C. Rife 603
Blood Levels of Ascorbic Acid and Vitamin A during Vitamin A Depletion and Effect of Administration of Ascorbic Acid during Terminal Vitamin A Depletion in the Dairy Cow. H. D. Eaton, C. F. Helmboldt, J. E. Avampato, E. L. Jungherr, K. L. Dolge and L. A. Moore 607
The Amino Acid Composition of the Fat-globule Membrane Protein of Milk. J. H. Hare, D. P. Schwartz and S. J. Weese 615
The Effect of Age and Size on the Fertility of Dairy Heifers. Durward Olds, Edward C. Troutman and D. M. Seath 620
A Comparison between Daily Rotational Grazing and Continuous Grazing. A. L. Brundage and W. E. Petersen 623
The Short-chain Fatty Acids of the Peripheral Blood of Goats. E. M. Craine and R. G. Hansen 631
The Preferential Utilization by Bull Spermatozoa of Glucose as Compared to Fructose. A. Vantienhoven, G. W. Salisbury, N. L. VanDemark and R. G. Hansen 637
Abstracts of Literature A57

AUGUST, NO. 8

The Interrelationships of Processing Treatments and Oxidation-reduction Systems as Factors Affecting the Keeping Quality of Dry Whole Milk. H. A. Harland, S. T. Coulter and R. Jenness 643
Preparation of Milk Fat. II. A New Method of Manufacturing Butteroil. Charles M. Stine and Stuart Patton 655
Blood Hemoglobin Values of Dairy Cattle. J. H. Byers, I. R. Jones and J. R. Haag 661
Multiple Strain Bacteriophage Infections of Commercial Lactic Starters. Darrell D. Deane and F. E. Nelson 668

The Value of Vitamin B_{12}, DL-Methionine and Potassium-penicillin in Milk Replacement Formulas for Dairy Calves. C. B. KNODT AND SOLOMON BLOOM 675
Factors Unrelated to Vitamin A Intake that Influence Plasma Vitamin A Concentration. J. W. THOMAS, W. C. JACOBSON AND L. A. MOORE 679
Plasma and Storage Levels of Vitamin A and Carotene in Relation to Intake by Calves on Different Diets. J. W. THOMAS AND L. A. MOORE 687
Concentrations of Certain Minerals in the Blood and Livers of Cattle as Related to Trace Mineral Supplementation and Bovine Brucellosis. C. F. GESSERT, D. T. BERMAN, J. KASTELIC, O. G. BENTLEY AND P. H. PHILLIPS 693
The Origin of Sulfhydryl Groups in Milk Proteins and their Contributions to "Cooked" Flavor. J. T. HUTTON AND S. PATTON 699
The Antigenicity of Bovine Spermatozoa. FRANK L. DOCTON, L. C. FERGUSON, E. J. LAZEAR AND FORDYCE ELY 706
PROCEEDINGS OF THE FORTY-SEVENTH ANNUAL MEETING 711

SEPTEMBER, NO. 9

The Effect of Various Dosage Levels of Crystalline Lindane on the Concentration of Lindane in Cow's Milk. RAY E. ELY, L. A. MOORE, H. D. MANN AND R. H. CARTER 733
The Influence of the Type of Diluent on the Growth and Survival of Pseudomonas Putrefaciens. R. O. WAGENAAR AND J. J. JEZESKI 738
Feeding Value of Different Grades of Alfalfa Hay for Growing Dairy Heifers. C. H. GORDON, J. R. DAWSON, L. A. MOORE AND W. H. HOSTERMAN 755
Effect of pH of Solution on Germicidal Activity of Quaternary Ammonium Compounds. K. F. SOIKE, D. D. MILLER AND P. R. ELLIKER 764
Ascorbic Acid and Riboflavin Destruction and Flavor Development in Milk Exposed to the Sun in Amber, Clear, Paper and Ruby Bottles. ERNEST O. HERREID, BYRON RUSKIN, GEORGE L. CLARK AND THOMAS B. PARKS 772
The Identification of Reducing Sugars in Cheddar Cheese during the Early Stages of Ripening. HAROLD J. FAGEN, J. B. STINE AND R. V. HUSSONG 779
Calcium Metabolism in Lactating Goats as Studied with Ca^{45} Following Oral and Intravenous Administration. W. J. VISEK, L. L. BARNES AND J. K. LOOSLI 783
Pasteurization Requirements for Concentrated Whole Milk. C. A. GROSCHE, H. L. LUCAS AND M. L. SPECK 793
Association Announcement 800
Abstracts of Literature A63

OCTOBER, NO. 10

Semen Production, Fructose Content of Semen and Fertility of Dairy Bulls as Related to Sexual Excitement. CECIL BRANTON, GERALD D'ARENSBOURG AND J. E. JOHNSTON 801
A Method for the Intrauterine Insemination of Certain Cows. N. S. FECHHEIMER, T. M. LUDWICK AND FORDYCE ELY 808
The Carrier State of Lactic Streptococcus Bacteriophage. D. M. GRAHAM, C. E. PARMELEE AND F. E. NELSON 813
Milk Serum Proteins. I. Quantitative Biuret Test for Milk Serum Proteins. B. C. JOHNSON AND A. M. SWANSON 823
Genetic Relationships in Resistance to Mastitis in Dairy Cattle. J. E. LEGATES AND C. D. GRINNELLS 829
Further Studies on the Influence of Tocopherol Supplementation on the Vitamin Content of the Milk Fat, Stability of Milk and Milk and Fat Production. VLADIMIR N. KRUKOVSKY AND J. K. LOOSLI 834
Contents of the Alimentary Tract of Calves at Birth. D. B. PARRISH AND F. C. FOUNTAINE 839
The Effect of Aureomycin Supplementation on Growth and Feed Utilization of Young Dairy Calves. W. R. MURLEY, N. L. JACOBSON AND R. S. ALLEN 846

Effect of Incipient Enzymatic Proteolysis on the Viscosity and Heat Stability of Evaporated Milk. N. P. TARASSUK AND M. S. NURY 857
The Value of Distillers Feeds for Milk Production. J. K. LOOSLI, K. L. TURK AND F. B. MORRISON 868
Studies on the Use of Permanent Milk Pipelines in Dairy Barns. I. Effect of Different Types of Installation on Milk Quality. M. H. ALEXANDER, W. O. NELSON AND E. E. ORMISTON 874
Modified Resazurin Reduction Test for Estimating Fertilizing Capacity of Bull Semen. R. E. ERB, M. H. EHLERS AND F. H. FLERCHINGER 881
Abstracts of Literature A73

NOVEMBER, NO. 11

Factors Influencing the Amount of Milk "Let-down" Hormone in the Posterior Lobe of Jersey Cattle. W. G. WHITTLESTONE, E. G. BASSETT AND C. W. TURNER 889
Frequency of Discharge of Pituitary Milk "Let-down" Hormone. W. G. WHITTLESTONE, (MRS.) D. R. PERRIN, R. D. PARKINSON AND C. W. TURNER 894
Fertility of Bull Semen as Influenced by Dilution Level, Antibiotics, Spermatozoan Numbers and the Interaction of these Factors. E. L. WILLETT AND G. L. LARSON 899
The Effect of Sodium Arsenite on the Respiration of Bovine Semen and the Relation of this Response to the Fertilizing Ability of Semen. A. B. SCHULTZE AND D. MAHLER 906
The Value of Aureomycin and Vitamin B_{12} in Milk Replacement Formulas for Dairy Calves. S. BLOOM AND C. B. KNODT 910
A Plating Method for the Isolation and Enumeration of Propionibacteria. CHARLES S. KAMBAR, GEORGE W. REINBOLD AND RALPH V. HUSSONG 918
Effects of the Hydrotron on Milk and Milkstone Formation. J. G. LEEDER AND R. V. MARTIN 920
The Effect of Copper upon the Activity of Bacteria Associated with Swiss Cheese Manufacture. H. F. MUELLER, W. O. NELSON AND W. A. WOOD 929
A Test of the Heat Stability of Milk Proteins for Use in Research. R. MCL. WHITNEY, KATHERINE PAULSON AND G. K. MURTHY 937
Effects of Feeding Large Amounts of Grass Silage to Dairy Bulls on Feed Utilization, Body Measurements and Semen Quality. R. J. FLIPSE, D. L. THACKER AND J. O. ALMQUIST 949
Relationship between Early Rate of Growth and Butterfat Production in Dairy Cattle. MOGENS PLUM, B. N. SINGH AND A. B. SCHULTZE 957
The Fertility of Interbreed vs. Intrabreed Matings as Determined from Artificial Breeding Data. E. L. CORLEY, N. D. BAYLEY AND F. A. HENDRICKSON 963
Abstracts of Literature A87

DECEMBER, NO. 12

Lactation Studies. III. Variations in Daily Yields of Dairy Cows. R. E. ERB, MARY M. GOODWIN, R. A. MORRISON AND A. O. SHAW 967
Lactation Studies. IV. Accuracy of Different Methods of Estimating Lactation Yields. R. E. ERB, MARY M. GOODWIN, R. A. MORRISON AND A. O. SHAW 977
The Effect of Heat on Milk as a Culture Medium for Lactic Acid Bacteria. E. M. FOSTER 988
A Comparison of "Hard" and Commercially Softened Water in the Ration of Lactating Dairy Cows. G. C. GRAF AND C. W. HOLDAWAY 998
Unidentified Dietary Factors in Dairy Cattle Nutrition. III. The Nutritive Value of Immature Alfalfa and Timothy Hays for Milk Production. C. F. HUFFMAN, S. T. DEXTER AND C. W. DUNCAN 1001
The Utilization of Urea by Dairy Cattle. N. R. THOMPSON, G. C. GRAF, J. F. EHEART AND C. W. HOLDAWAY 1010
Differences in Milking Response under Prescribed Variations in Methods Employed to Stimulate Milk Let-down. DONALD B. ROARK, G. H. BECK AND H. C. FRYER 1017

Electrophoretic Properties of Milk Proteins. I. Preparation of Samples of Skimmilk for Electrophoretic Studies. J. TOBIAS, R. M. WHITNEY AND P. H. TRACY 1026
Electrophoretic Properties of Milk Proteins. II. Effect of Heating to 300° F. by Means of the Mallory Small-tube Heat Exchanger on Skimmilk Proteins. J. TOBIAS, R. MCL. WHITNEY AND P. H. TRACY 1036
Lipids in Blood Plasma of Young Dairy Calves. J. H. ZALETEL, R. S. ALLEN AND N. L. JACOBSON 1046
Studies of Heated Milk. IV. Observations on Browning. STUART PATTON 1053
The Bacteriology of Sweet-curd Brick Cheese. R. A. ZORN, F. F. BUTZI, JR. AND E. M. FOSTER 1067
The Effects of Added Corn Meal and Dried Whey and of Moisture Level on the Preservation of Alfalfa Silage. T. G. MARTIN, G. E. STODDARD AND A. R. PORTER 1076
An Electrophoretic Study of the Proteins in Skimmilk. W. L. SLATTER AND Q. VAN WINKLE 1083
The Effect of Aureomycin Feeding on Changes in Weight and in Body Measurements of Dairy Calves. N. L. JACOBSON, J. G. KAFFETZAKIS AND P. G. HOMEYER 1094
The Preserving Action of Subtilin and Mild Heat in Normal and Concentrated Milk. FRED R. EVANS AND HAROLD R. CURRAN 1101
Antirachitic Activity of Some Dehydrated Alfalfa Hays and the Effect of Adding Limestone to the Grain Ration on the Development of Rickets in Calves. J. W. THOMAS 1107
The Value of Oxytocin for Reducing Fluctuations in Milk and Fat Yield. H. P. ADAMS AND N. N. ALLEN 1117
The Effect of Removal of Residual Milk by Use of Oxytocin upon the Yield and Fat Content of Subsequent Milkings. H. P. ADAMS AND N. N. ALLEN 1121
The Thermal Behavior of Milk Fat in Rapidly Cooling Cream. A. H. RISHOI 1125
New Members, 1952 1130
National Intercollegiate Dairy Cattle Judging Contest 1132
Collegiate Students' International Contest in Judging Dairy Products 1134
Erratum 1136
Subject Index of Original Articles 1137
Author Index of Original Articles 1145
Subject Index of Abstracts A99
